

INDIANA PODIATRIC MEDICAL ASSOCIATION

2008 DOCTORS PROGRAM

**Hyatt Regency Downtown Hotel - Indianapolis, IN
One S. Capitol Avenue
Indianapolis IN 46204
September 18-21, 2008**

MISSION STATEMENT

The Indiana Podiatric Medical Association is an organization consisting of licensed podiatric physicians in the state of Indiana whose primary purpose is to promote the art and science of podiatric medicine and the betterment of public health through an annual program of continuing education and other professionally oriented instruction for member podiatric physicians. In addition, the Indiana Podiatric Medical Association strives to achieve a better rapport and understanding among the health professions, and increase public awareness of podiatric medicine through public relations activities.

PURPOSE

This Conference will provide information on the most up-to-date diagnostic and treatment methods for lower extremity disorders.

INTENDED AUDIENCE

This Conference will be of interest to podiatric physicians and surgeons. Other health care professionals with special interest in the diagnosis and treatment of lower extremity disorders will also benefit from this Conference.

OBJECTIVES

1. To provide the podiatric physician with a broad range of programs offered in an intensive 3-day conference.
2. To establish an understanding of developing concepts in the diagnosis, evaluation and treatment of lower extremity disorders and foot conditions.

THURSDAY – SEPTEMBER 18, 2008

8:00 – 11:00 a.m.	IPMA Board of Trustees Meeting
11:00 a.m. – 12:00 p.m.	2008 & 2009 IPMA Continuing Education Committee Meeting and Speakers Welcome Lunch
12:30 – 2:00 p.m.	Registration
1:00 – 8:45 p.m.	DOCTORS EDUCATIONAL SESSIONS

INDIANA PODIATRIC MEDICAL ASSOCIATION

2008 DOCTORS PROGRAM

THURSDAY – SEPTEMBER 18, 2008

1:00 – 3:00 p.m.

Hyperbaric Oxygen – An Advanced Therapy for Difficult Wounds – **Bob Bartlett MD, FAPWCA, UHM**, President, American College of Hyperbaric Medicine and Senior Medical Advisor for National Healing, Lexington SC

The Role of Oxygen in Wound Healing Nonhealing wounds can also be managed by optimizing the metabolic requirements of healing, e.g. protein, trace elements, and oxygen. The most frequent common denominator in nonhealing wounds is inadequate tissue oxygenation, which impairs healing and host defenses. Correction of such hypoxia by means of hyperbaric oxygen therapy or revascularization results in healing for most patients. Conventional wisdom suggests that oxygen is just a metabolite and therefore healing, in these circumstances, is simply a reflection of having sufficient oxygen to meet the energy demands of wound repair. However, new evidence indicates that oxygen serves a dual role as both a metabolite and a growth factor. The conceptualization of oxygen as a growth factor has considerable relevance to the field of hyperbaric oxygen therapy. Upon completion of this presentation, the audience should be able to:

- ⇒ Understand the physiology of wound healing
- ⇒ Recognize the importance of oxygen gradients
- ⇒ State the rationale for HBO therapy

Lower Extremity Problem Wounds In the spring of 2003, CMS formally recognized the value of hyperbaric therapy in the management of diabetic wounds. “Good wound care” as defined by CMS will be reviewed with an emphasis placed on the role of hyperbaric therapy as part of a comprehensive limb salvage program. Upon completion attendees will:

- ⇒ Understand the pathophysiology of the problem wounds from an oxygen perspective
- ⇒ Recognize the clinical indications for hyperbaric therapy
- ⇒ State the rationale for HBO therapy and the supporting evidence for the diabetic foot
- ⇒ Formulate an algorithm for the management of diabetic wounds.

Transcutaneous Oxygen Mapping Transcutaneous oximetry is a simple, reliable noninvasive for the assessment of local tissue perfusion and oxygenation. Clinicians who use transcutaneous data are in a much better position to decide whether a wound can hold up to surgical debridement, its general potential to heal and if necessary, the selection of an amputation level which will afford the greatest limb length with a reasonable chance of recovery. Although hypoxia is a common feature among problem wounds, it is difficult to determine which wounds have a clinically significant burden of hypoxia. Transcutaneous oxygen screening helps to identify those patients who should be considered for vascular reconstruction or hyperbaric therapy. The use of an oxygen challenge under normobaric or hyperbaric conditions further clarifies potential responders from nonresponders. Upon completion of this topic, attendees will:

- ⇒ Understand the physiology of transcutaneous oxygen measurements
- ⇒ Recognize the clinical indications and limitations of transcutaneous oxygen measurements
- ⇒ Formulate a treatment algorithm for problem wound patients utilizing transcutaneous oxygen measurements.

3:00 - 3:15 p.m.

Afternoon Break

INDIANA PODIATRIC MEDICAL ASSOCIATION

2008 DOCTORS PROGRAM

THURSDAY – SEPTEMBER 18, 2008

3:15 – 4:15 p.m.

The Use of Locking Plates in Foot Surgery –

Patrick A. DeHeer DPM, Columbus IN

The attendee will learn about locking plates in foot surgery. The indications and technique for the locking plates will be discussed. Examples of cases will be given to reinforce the basics of locking plates.

4:15 – 5:15 p.m.

Pain Management for Foot & Ankle Disorders via Spinal Cord Stimulation for Pain Control –

Speaker to be announced - Sponsored by Boston Scientific

The attendee will understand how painful Foot and Ankle Disorders can be relieved through Spinal Cord Stimulation. Various types of foot and ankle disorders will be discussed and participants will learn how to formulate a treatment plan for pain management.

5:15 – 6:15 p.m.

The Football Dressing – An Intuitive Dressing for Offloading Plantar Neuropathic Forefoot Ulcerations –

Andrew J. Rader DPM, Jasper IN

The “Football Dressing” was developed to address a need for an affordable and efficacious offloading technique for plantar forefoot ulcerations in the neuropathic patient. The healing times have been compared to the gold standard of total contact casting in two articles published over the past three years. Information regarding these studies will be presented and the application of the dressing will be demonstrated. The goal of the presentation is that the podiatrist will be capable of developing appropriate rationale for use of the dressing and will be fully trained in the actual application of the dressing.

6:00 - 8:00 p.m.

Registration & Exhibitor Set-Up

6:15 – 6:45 p.m.

Break

6:45 – 8:45 p.m.

Understanding Legal Tools: The Key to Asset Protection –

G. K. Mangelson CFP, Senior Advisor,

National Foundation for Asset Protection –

Sponsored by National Foundation for Asset Protection

Lawsuits have been used to destroy and bankrupt countless innocent successful people. We will educate those that attend about the court proven legal tools available to protect their hard earned personal and business assets and lower their taxes. Upon completion of Mr. Mangelson’s presentation, the attendees will know how to:

100% protect their professional and personal assets from lawsuits.

Reduce taxes by 20-40%

Reduce liability insurance costs.

This is a practice management lecture and will not count towards continuing education credit.

FRIDAY – SEPTEMBER 19, 2008

7:00 - 10:30 a.m.

Registration

7:00 - 8:00 a.m.

Continental Breakfast

8:00 a.m. – 6:00 p.m.

DOCTORS EDUCATIONAL SESSIONS

INDIANA PODIATRIC MEDICAL ASSOCIATION

2008 DOCTORS PROGRAM

FRIDAY – SEPTEMBER 19, 2008

- 8:00 – 9:00 a.m. *Invasive Procedures: Peripheral Angiography; Carotid –*
Greg Elsner MD FACC, Vascular Institute Cardiologist, The
Care Group, Indianapolis IN – Sponsored by The Care Group
- 9:00 – 10:00 a.m. *Forensic Podiatry: How Feet Can Convict Criminals –*
Michael S. Nirenberg DPM, Crown Point
This lecture will introduce the practitioner to the world of forensic podiatry and how podiatric medicine
techniques have been used to assist police.
- 10:00 - 10:30 a.m. Coffee Break
- 10:30 – 11:30 a.m. IPMA General Business Meeting – Members Only Please -
Keynote Speaker: **Ross E. Taubman DPM**, President,
American Podiatric Medical Association
- 11:30 a.m. – 12:30 p.m. *PTTD (Adult Acquired Flatfoot Deformity) –*
Patrick A. DeHeer DPM, Columbus IN
- 12:30 – 1:30 p.m. Lunch – *Surgery's Fun But Fungus Pays the Bills -*
Bret M. Ribotsky DPM, Boca Rotan FL
Have you figured out the number of hours you spend on surgery patients and how much you get paid for post-op
visits? This lecture will explain ways to practice smarter and better.
- 1:30 – 2:30 p.m. *Hallux Limitus/Rigidus Specifically Regarding the "Sagittal*
Scarf" - **Myron Wolf DPM**, Elk Grove Village IL
- 2:30 – 3:30 p.m. *Midfoot Fusions - Myron Wolf DPM*, Elk Grove Village IL
- 3:30 – 4:00 p.m. Afternoon Break
- 4:00 – 5:00 p.m. *External Ring Fixation: Past, Present and Future –*
Myron Wolf DPM, Elk Grove Village IL
- 5:00 – 6:00 p.m. *Hallux Limitus/Rigidus II: Interpositional Soft Tissue Grafting*
– **Myron Wolf DPM**
- 6:00 – 7:00 p.m. Strategic Planning Task Force Meeting
- 6:00 – 8:00 p.m. Reception Sponsored by Wright Medical Technologies Inc.

**INDIANA PODIATRIC MEDICAL ASSOCIATION
2008 DOCTORS PROGRAM**

SATURDAY – SEPTEMBER 20, 2008

- 7:00 - 8:00 a.m. Continental Breakfast
- 8:00 a.m. – 6:15 p.m. DOCTORS EDUCATIONAL SESSIONS
- 8:00 – 9:00 a.m. *Wound Care and Diabetic Peripheral Neuropathy – Mackie J. Walker Jr. DPM, Aiken, SC*
Sponsored by Pam Lab LLC
- 9:00 – 10:00 a.m. *Total Ankle Replacement: An Overview and Introduction to the Salto-Talaris Implant - Jesse B. Burks DPM, Little Rock AK*
This lecture will review the progression of ankle implant development and the classification and design of ankle implants. It will present implants which are currently being used in the USA and in Europe. It will present the Salto-Talaris implant: design and indications. The surgical technique of this particular implant and personal surgical cases studies of the implant will be presented.
- 10:00 – 10:30 a.m. Coffee Break in Exhibit Hall
- 10:30 a.m. – 12:30 p.m. *Total Ankle Replacement: An Overview and Introduction to the Salto-Talaris Implant - Jesse B. Burks DPM, Little Rock AK*
Ankle implant arthroplasty has existed for thirty years. High complications rates, poor outcomes, and questionable implant longevity have caused surgeons to rely almost exclusively on arthrodesis for relief of pain and deformity. New implants, however, including the Salto-Talaris, are significantly improved over their precursors and offer foot and ankle surgeons another choice in addressing ankle arthrosis. The attendee will achieve the following objectives: 1. Review ankle implant history; 2. Review ankle implant indications and contraindications; 3. Review current implant designs; 4. Introduce the salto-talaris implant; 5. Review surgical procedure and peri-operative treatment; and 6. Illustrate with case studies.
- 12:30 - 2:00 p.m. Recognition Luncheon – Keynote Speaker –
Randall A. Cooper DPM, IPMA President-Elect
- 2:00 – 4:00 p.m. *The Pediatric Foot: What I've Learned So Far – Harold J. P. van Bosse MD, Pediatric Orthopaedic Surgeon, Shriners Hospitals for Children, Philadelphia PA*
- 4:00 – 4:15 p.m. Afternoon Break
- 4:15 – 5:15 p.m. *Soft Tissue Repair with Graft Augmentation – Eric E. Leonheart DPM, Puyallup WA*
Sponsored by Pegasus Biologics
This lecture will discuss the types of soft tissue pathology the foot and ankle surgeon can encounter. We will discuss the expected surgical findings and how to evaluate the severity. The goal will be to educate the surgeon on surgical options available to augment the repair process with graft material.

SATURDAY – SEPTEMBER 20, 2008

5:15 – 6:15 p.m.

Salvage of Failed First Metatarsal Surgery -

Eric E. Leonheart DPM, Puyallup WA

This lecture will discuss the complications associated with first ray surgery. We will discuss the etiology of the complication process and what surgically can be addressed. The goal will be to educate the surgeon on salvage techniques available when addressing the complication process and maintain a functional foot.

6:15 – 7:15 p.m.

Past Presidents Council Meeting

SUNDAY – SEPTEMBER 21, 2008

7:30 - 8:30 a.m.

Continental Breakfast

8:30 a.m. – 12:30 p.m.

DOCTORS EDUCATIONAL SESSIONS

8:30 – 9:10 a.m.

*Arthroscopy with its Indications for Impingement Syndromes and Lateral Ankle Stabilization –***Clint Larsen DPM**, Resident, St. Joseph's Regional Center, South Bend IN

9:10 – 9:50 a.m.

To be announced –Resident, St. Mary's Medical Center, Evansville IN

9:50 – 10:30 a.m.

To be announced –Resident, Westview Hospital, Indianapolis IN

10:30 – 10:45 a.m.

Mid-Morning Break

10:45 – 11:20 a.m.

To be announced – **Chase Stewart DPM**, Resident, St. Vincent Hospital, Indianapolis IN

11:20 – 11:55 a.m.

To be announced – **Jeremy Spaulding DPM**, Resident, St. Vincent Hospital, Indianapolis IN

11:55 a.m. – 12:30 p.m.

To be announced – **Kari Ann Kedar DPM**, Resident, St. Vincent Hospital, Indianapolis IN

2008 CORPORATE PARTNER SPONSORS:

AGENCY ASSOCIATES

ADVANCED BIOHEALING

M-TECH LAB INC,

PAL HEALTH TECHNOLOGIES INC.

OUR THANKS TO OUR CONTINUING EDUCATION SPONSORS:

**Boston Scientific
National Foundation for Asset Protection
PamLab LLC
Pegasus Biologics
The Care Group**

CONTINUING EDUCATION:

The Indiana Podiatric Medical Association is approved by the Council on Podiatric Medical Education as a sponsor of continuing education in podiatric medicine. This program has been awarded:

Thursday, September 18, 2008	5.00 Hours
Friday, September 19, 2008	7.00 Hours
Saturday, September 20, 2008	8.00 Hours
Sunday, September 21, 2008	3.00 Hours
TOTAL HOURS	23.00 Hours

Ginny Jewell, Executive Director

STATE

Indiana
Kentucky
Michigan
Ohio

WILL APPLY

23.0 Hours
23.0 Hours
23.0 Hours
23.0 – Category I

While the program and the attendance verification certificate indicate that it is possible to earn 23 CME hours, the individual physician is responsible for obtaining the attendance verification. Each individual certificate will indicate the number of continuing education hours awarded based upon attendance verification records. The times of attendance verification are:

**Thursday, 9/18/08 – 6:15 – 6:45 p.m. – Registration Booth
Friday, 9/19/08 – 10:00 – 10:30 a.m. and 3:30 – 4:00 p.m. Exhibit Hall
Saturday, 9/20/08 – 10:00 – 10:30 a.m. Exhibit Hall; 4:00 – 4:15 p.m. Doctors Lecture Room
Sunday, 9/21/08 – 10:30 – 10:45 a.m. Doctors Lecture Room**

CANCELLATION/REFUND POLICY

We understand that circumstances may arise that requires you to cancel. If you cancel your registration in writing by the advance registration date, your registration fee will be refunded, less a \$25 processing charge. In lieu of a refund, your paid registration fee can also be used to send a substitute attendee to the Conference, who will receive continuing education credit appropriate to his/her profession.

If you have questions or would like further information about this Conference, please contact Ginny Jewell at the IPMA Central Office at 317-237-3569.

INDIANA PODIATRIC MEDICAL ASSISTANTS

2008 ASSISTANTS PROGRAM
Hyatt Regency Hotel - Indianapolis, IN
One S. Capitol Avenue
Indianapolis IN 46204
September 18-20, 2008

THURSDAY – SEPTEMBER 18, 2008

6:00 - 8:00 p.m. Registration

TRACK #1

FRIDAY – SEPTEMBER 19, 2008

7:00 - 10:30 a.m. Registration

7:00 - 8:00 a.m. Continental Breakfast

8:00 a.m. - 5:00 p.m. ASSISTANTS EDUCATIONAL SESSIONS

8:00 – 8:30 a.m. IPA General Business Meeting - All are welcome to attend!

8:30 – 10:00 a.m. *In-Office Procedures Workshop –*
Angie L. Glynn DPM, Indianapolis IN

This lecture will review in-office procedures and the protocols involved in making them go smoothly from start to finish. The assistant will learn about: 1 Pre-procedure protocols- consent, patient information; 2 Set up; 3 Rationale for the individual procedures; 4 Post-op care; and 5 Handling complications. Procedures included will be matrixectomies, avulsions, injections, wart removals, flexor tenotomies, amputations, wound debridements and wound grafting.

10:00 – 10:30 a.m. Coffee Break

10:30 – 11:30 a.m. *Back Office Efficiency –* **Walter G. Warren DPM, Seymour IN**

This lecture will discuss what the assistant can do to make for a more efficient day.

11:30 a.m. – 12:30 p.m. *Office Staff Risk Management Series Including Patient Relations & Communications; Documentations and Office Systems –* **Lisa R. Lanham DPM, Columbus IN**

12:30 – 1:30 p.m. Lunch – *Surgery's Fun But Fungus Pays the Bills -*
Bret M. Ribotsky DPM, Boca Rotan FL

Have you figured out the number of hours you spend on surgery patients and how much you get paid for post-op visits? This lecture will explain ways to practice smarter and better.

TRACK #1

FRIDAY – SEPTEMBER 19, 2008

1:30 – 2:30 p.m. *Building Better Work Relationships – Performing Well Under Pressure, Overcoming Intimidation and Managing Up!*

Marla K. Watson, Indianapolis IN

How can each staff person contribute to building the team? Suggestions on how you can improve your office relationships will be given.

2:30 – 3:30 p.m. *Billing Aspects of Medicare*

Christine A. Obergfell, Provider Outreach and Education,
National Government Services Inc.

3:30 – 4:00 p.m. Afternoon Break

4:00 – 5:00 p.m. *Clinical Education Areas: Documentation and Coverage –*

Mimi Vier CPC, Provider Outreach and Clinical
Education, National Government Services Inc.

6:00 – 8:00 p.m. Reception Sponsored by Wright Medical Technologies Inc.

SATURDAY – SEPTEMBER 20, 2008

7:00 - 8:00 a.m. Continental Breakfast

8:00 a.m. – 5:15 p.m. ASSISTANTS EDUCATIONAL SESSIONS

8:00 a.m. – 12:30 p.m. *HIPAA Assessment – Joseph Suchochi*, Eagle Associates,
Ann Arbor, MI

The primary objective is to provide instruction for practices to evaluate their compliance for HIPAA requirements. The presentation begins with an overview for all of HIPAA's regulations with primary focus on The Privacy Rule and Security Standard. Materials for the presentation are designed to function as an assessment tool that participants can utilize in their practices. Privacy Rule topics will include practice responsibilities, patient rights, patient authorizations, and confidentiality for protected health information. The Security Standard portion of the presentation focuses on performing an annual risk assessment (a required specification of the Standard) for a practice's electronic protected health information. The presentation is intended to be an interactive meeting allowing the participants to ask questions as information is presented.

10:00 – 10:30 a.m. Coffee Break in Exhibit Hall

12:30 - 2:00 p.m. Recognition Luncheon – Keynote Speaker –
Randall A. Cooper DPM, IPMA President-Elect

2:00 – 4:00 p.m. *Effective Teamwork/Customer Service – Cathy Molchan*,
Westfield IN

TRACK #1

SATURDAY – SEPTEMBER 20, 2008

- 4:00 – 4:15 p.m. Afternoon Break
- 4:15 – 5:15 p.m. *Building on Your Strengths* – **Jane O’Bryan**, South Bend IN

CONTINUING EDUCATION APPROVAL:
*Applied to the Commission on Accreditation of Podiatric Medical Assisting Certification
For 14.5 CME Credits*

TRACK #2

FRIDAY – SEPTEMBER 19, 2008

- 7:00 - 10:30 a.m. Registration
- 7:00 - 8:00 a.m. Continental Breakfast
- 8:00 a.m. - 5:30 p.m. ASSISTANTS EDUCATIONAL SESSIONS
- 8:00 – 8:30 a.m. IPA General Business Meeting - All are welcome to attend!
- 8:30 a.m. – 5:30 p.m. ASPMA PMAC Certification Examination Review Course –
Joan Gordon PMAC, Chair,
American Society of Podiatric Medical Assistants Qualifying
And Examining Committee

This eight-hour course is designed for the podiatric medical assistant who has completed at least 3 months of preparation with the exam study manual, The Comprehensive Guide to Podiatric Medical Assisting. A thorough and more extensive review of the seven exam categories will be offered, along with a written “mock” exam. A positive learning atmosphere is provided with one-on-one, as well as group, interaction. Limited hands-on learning is offered in anatomy, biomechanics and instrumentation. *Pre-registration for the exam and course IS mandatory. There will be NO on-site registration.*

Seven Exam Categories Include:

1. General Information and Knowledge of the Profession – 50 questions
2. Anatomy/Biomechanics – 69 questions
3. Terminology – 50 questions
4. Clinical Testing and Procedures – 50 questions
5. Surgical Assisting and Instrumentation – 50 questions
6. Radiology – 80 questions
7. Medical Emergencies and CPR – 51 questions

- 10:00 – 10:30 a.m. Coffee Break
